C&L Aerospace Partners with Electromech Technologies

Partnership covers over 70 Electromech product offerings.

BANGOR, Maine – C&L Aerospace, a [C&L Aviation Group](#) Company, has partnered with Electromech Technologies, to serve as a provider for the company’s product offerings including blowers, motors, valves, and actuators for many aircraft types including Beechjet, King Air, Hawker, Premier, Learjet, Beech1900, Pilatus, and Cessna. This partnership, which includes over 70 different line items, will bring significant cost savings to operators via volume pricing to OEM quality items that are available for immediate exchange.

“We are excited to be working with C&L”, said PJ Tos, Actuation and Position Sensing Business Manager for Electromech Technologies. “We see considerable opportunities for both companies opening up as a result of working together”

In addition to providing the current Electromech offerings, C&L is working with Electromech to increase repair capabilities on items currently in the market to improve design, quality, and reduce lead times. These additional repair capabilities are being looked at on a per-part basis for aircraft in both the corporate and regional markets.

“Having quality partners like Electromech to work with is key to providing the best possible service to our customers,” said [Brad Vieux, Director of Business Development, Corporate Aircraft](#). “This program will help us increase our support and ability to provide quality tip to tail parts availability throughout the market.

Recently C&L announced [the purchase of the entire BeechJet 400 rotatable inventory](#) from Global Parts which included many items that originated from Electromech Technologies.

[C&L Aviation Group](#) is an industry leader in servicing, maintaining, and supporting operators in the corporate and regional aviation industry. In addition to aircraft and engine sales and leasing programs, C&L offers parts support, heavy maintenance, interior refurbishment, aircraft teardown, disassembly services, and aircraft management. C&L is headquartered in Bangor, Maine, with international offices in Australia, Singapore, and Europe.
