

Walter Johns

Western Aircraft

Walt leads the Parts and Logistics operations for Western Aircraft. He oversees Over the Counter (OTC) parts sales, Material Control, and Purchasing. Walt has been working in aviation since 1982, when he began his career in the U.S. Air Force. Along with his current responsibilities Walt has worked in various capacities in aviation including maintenance, test and inspection, quality assurance, and supervision. Walt is also a former executive and engineer from Hewlett Packard with extensive process analysis and application training. He is a Black Belt in Six Sigma, and KEPNER TREGOE Analytical Trouble Shooting Studies. Walt is a former student of the Community College of the Air Force.
