C&L Aviation Group to Distribute Garmin's Full Line of Products

Dealer agreement will aid in ADS-B upgrades for the FAA mandate

BANGOR, Maine – C&L continues to help operators alleviate their [ADS-B concerns](#), most recently with a new distributorship with Garmin International. This partnership encompasses the full line of products, including ADS-B upgrades, communications, navigation equipment and full-glass cockpits for all regional and corporate aircraft types.

Garmin products add to the wide range of avionics currently offered to C&L customers and efficient solutions available for assisting with ADS-B upgrades.

“Expanding our offerings always means better and more timely service for our customers, which is our first priority,” said [Al Kinnamon](#), C&L’s Avionics Sales Manager. “We are especially happy to offer products that will aid in ADS-B upgrades with minimal downtime. We are thrilled to be partners with Garmin International.”

C&L has already completed an ADS-B installation using Garmin products on a Hawker 800XP. Because the company’s headquarters in Maine was built using a one-stop-solution concept--with everything from parts to interiors and paint all in one central location--these upgrades take less time and involve less downtime for operators.

To schedule a service or to talk with sales manager about your ADS-B needs, please contact [Ron Jennings](#), Regional Sales at 207-217-6120 for corporate aircraft inquiries and [Calvin Tuitt](#), SVP of Business Development MRO at 207-217-6050 for regional aircraft inquiries.

[C&L Aviation Group](#) is an industry leader in servicing, maintaining, and supporting operators in the corporate and regional aviation industry. In addition to aircraft and engine sales and leasing programs, C&L offers parts support, heavy maintenance, interior refurbishment, aircraft teardown, disassembly services, and aircraft management. C&L is headquartered in Bangor, Maine, with international offices in Australia and Europe. www.cla.aero
