C&L Aviation Group Completes Hawker 800XP ADS-B Garmin ADS-B Installation

BANGOR, Maine – C&L Aviation Group recently installed the first Garmin ADS-B Out solution for a Honeywell Primus II-equipped Hawker 800XP. The installation was done in cooperation with Elliot Aviation at C&L’s Bangor, Maine, facility, and it complies with the FAA 2020 ADS-B Mandate and DO-260B standards.

As a distributor for Garmin International, C&L offers its customers the full line of Garmin products—including ADS-B upgrades, communications, navigation equipment and full-glass cockpits—to support corporate aircraft owners. C&L also offers a wide range of other avionics equipment to compliment ADS-B upgrades.

“This entire experience with [C&L Aviation] has been truly amazing,” said customer Kevin Braun, with Braun Aviation, emphasizing a guiding principle of C&L Aviation.

“This response from Braun Aviation is what we want each and every one of our customers to say after having a project completed at C&L Aviation Services,” said Ron Jennings, Regional Sales Manager for Corporate Aircraft at C&L Aviation. “This particular project was truly a team effort, including Maintenance, Interior and avionics, showing just how much C&L can do at its facility.”

Because C&L is a One-Stop Shop facility specializing in complete aircraft support, customers who choose C&L for their ADS-B upgrades can also take advantage of C&L’s full range of services — heavy maintenance, interior refurbishments, exterior paint, component repair and more — all at one convenient location.

C&L Aviation Group is an industry leader in servicing, maintaining, and supporting operators in the corporate and regional aviation industry. In addition to aircraft and engine sales and leasing programs, C&L offers parts support, heavy maintenance, interior refurbishment, aircraft teardown, disassembly services, and aircraft management. C&L is headquartered in Bangor, Maine, with international offices in Australia and Europe.
